ABOUT COMPANY

Reliable

"I believe in providing Reliable solutions to our clients, ensuring their trust in our services."

Riofos® Technologies Pvt. Ltd. is a renowned company that specializes in professional software and website development. With a solid reputation, we are committed to delivering highly proficient services in a timely manner, while maintaining cost-effectiveness. Our expertise lies in offshore software development and project management, which enables us to provide efficient and effective solutions for our esteemed clients. With years of experience in these domains, we ensure that our services meet the highest standards, surpassing client expectations.

By leveraging our extensive knowledge and skills, we create cutting-edge software applications and userfriendly websites that cater to diverse industries. We value client satisfaction above all and prioritize clear communication throughout the development process, ensuring a seamless collaboration. Our holistic approach includes comprehensive planning, robust coding, rigorous testing, and seamless deployment. At Riofos® Technologies, we take pride in our track record of successful projects, client testimonials, and long-term partnerships. Trust us to transform your ideas into reality with our exceptional software and website development services.

“

We are the architects of your online presence, the coders of your success, and the bridge between your business and its digital future.

”

CEO & CTO STATEMENT

Innovative

"Our commitment to being Innovative drives us to explore new ideas and technologies, pushing the boundaries of what's possible in IT."

Akhilesh Kushwaha

CEO & FOUNDER

Akhilesh, a BTech Engineer with over 5 years in the IT industry, drives business growth while nurturing a culture of integrity, empathy, and ownership.

His background in corporate business and operations, combined with a passion for finding new efficiencies, has been pivotal in his role. He approaches challenges with genuine enthusiasm, always seeking innovative solutions to enhance operational effectiveness.

His blend of experience and zeal makes him a key asset in any team, pushing boundaries while maintaining a collaborative environment.

Priyanka Khakhariya

CTO & FOUNDER

Priyanka, a distinguished MCA graduate from VNSGU, with over 7 years in the IT industry excels in leading technology development, designing innovative product architectures, and developing scalable solutions.

Her expertise extends beyond technical prowess, encompassing a deep understanding of Logistics, Fintech, Furniture industries. This knowledge enables her to create digital products that are both cutting-edge and business-centric.

Her unique blend of skills makes her a pivotal figure in bridging technology with strategic business goals.

Our Clients

Open-minded

"An Open-minded approach defines our collaborative work culture, encouraging diverse perspectives and creative solutions within our IT team."

"Our Clients speak of our collaboration as not just a service, but an experience, a journey of transformation where their visions are shaped into reality with precision and passion."

Our Testimonial

S

Strategic

"We take a Strategic approach to every project, aligning our efforts with the long-term goals of our clients."

I was facing a problem with my Outlook email services. I was not receiving emails but could send emails, which means incoming mail services were down. I tried many things from my side but could not fix up the issue. I even took help from Microsoft but it was too technical. I lost 7 days in trying on my own without any success.

SANJIV DESAI

(Starken Consultancy)

I gave my business website to Mr. Akhilesh and i shared only the vision i had behind it. He and his team developed it on their own and i did not have to interfere at all. Just on base of a profile given and verbal descriptions they did a fantastic work. Strongly recommend team riofos for any work related to website.

NIMISH DESAI

(Prescient Strategist)

"Where innovation meets excellence - that's the space our clients say we occupy"

“ Alone we dream, together we achieve.
Let's unite our visions and create digital masterpieces ”

Are you interested in discussing a project?
Let's work together to achieve greatness.
